

Cancer & Autoimmunity 2018

The Center of Genetic Engineering and Biotechnology (CIGB) is pleased to announce the 2nd International Workshop: "Cancer & Autoimmunity" to be held at the Melia Marina Varadero Hotel, Varadero, Cuba, in **September 17-20, 2018**.

This four-day event will be an excellent opportunity to bring together some of the most relevant speakers worldwide in Cancer & Autoimmunity.

One of the key objectives of the 2018 Symposium will be to arm delegates with the necessary tools that will enable them to make a difference, implement and take actions at all levels, in global fight against cancer or autoimmunity diseases.

General Topics

Cancer:

- Emerging molecular targets for cancer therapy
- Cancer genomic and oncogene addiction
- Angiogenesis and cancer-related inflammation
- Cancer Immunotherapy using active, passive and cell based strategies
- Immunocheckpoint inhibitors

Autoimmunity:

- Autoimmune diseases
- Cytokines in Autoimmunity
- Pathophysiology and Autoimmunity
- Rheumatoid Arthritis
- Immunotherapy
- Induction of tolerance. HSP60
